The Hughes Practice

A single reference for how the website looks, sounds and behaves – so every future change stays consistent. Colours, type and components below mirror the live site exactly.

01 – PERSONALITY

Brand personality

Warm, calm and human, with quiet confidence. The practice should feel like a safe, unhurried space – never clinical, never salesy. Modern and considered, but soft.

02 – LOGO

Logo

The wordmark reads **THE HUGHES PRACTICE** with the subtitle **THERAPY FOR REAL LIFE**. Title set in Cagliostro, subtitle in Yaldevi (both baked into the artwork).

Usage

✓ Do

- Use the black wordmark on light backgrounds (BRISK / white).
- On dark backgrounds, use an off-white version of the wordmark.
- Give it clear space; keep it around 50px tall in the header.

× Don't

- Place the black logo on a dark or busy background.
- Stretch, recolour arbitrarily, or add effects.
- Re-type the name in another font instead of using the artwork.

03 - COLOUR

Colour palette

A clean off-white canvas with pops of colour. Named brand colours carry the personality; neutrals carry the text. Use one or two colour accents per section – never all at once.
